SOLID WASTE MANAGEMENT FUND CAPITAL PROJECTS FINANCING PLAN

As part of the annual budget process, the City appropriates funding for capital projects in accordance with the Five Year Capital Improvement Plan. Typically, the City conducts annual bond financings in the last half of each fiscal year. New bond issues are based on the expected cash flow requirements of projects between bond sales and may differ from funding requirements for annual appropriations.

***HISTORICAL QUOTE:***

“On the 7th of October I arrived in the town of Lynchburg after an absence from it of nearly three years. I was astonished at the changes which, during this period, had been made. New streets opened, new buildings erected, bustle and activity in every direction, showed it to be a place of considerable and growing importance. The business part of town lies at the foot of a hill, along the margin of the river, quite convenient to the boat navigation; and when the improvements, now begun, shall have been completed, it will be neat, agreeable, and sufficiently handsome. At a little distance from the river the ground is broken into hills, which afford various pleasant and almost picturesque prospects to the beholder. On these hills, quite decent houses for family residences are rising up with great rapidity.”

John Holt Rice, “An Excursion into the Country” 1818
